

Corruption Risk Prevention Plan

The Corruption Risk Prevention Plan applies to the entire organisation and to all activities carried out by the obliged entity, with the following main objectives:

- To identify, analyse and assess risks and situations that may expose the entity to acts of corruption and related offences, taking into account the sector of activity and the geographical areas in which it operates;
- To implement preventive and corrective measures aimed at reducing both the likelihood of occurrence and the potential impact of the identified risks and situations;
- To promote awareness and ongoing training among employees;
- To monitor and assess the implementation of the Corruption Risk Prevention Plan on a regular basis, or whenever relevant changes occur that justify its revision.
